Design your own dual level Tunnel & Hut soft play area. Our modular tunnels & huts soft play spaces come in 2 sizes; Mini 800 Series (for under 4's) & Standard 1000 series (for under 11's).

Choose how many tunnels & huts you require to fit your space. Add steps, a slide & log climb or maybe some windy stairs. Complete the area with safety wall and floor padding. You can then add mirrors, wall games & general soft play shapes from our huge range of soft play products.

Can be manufactured in plain bright colours, to one of our themes or even your very own theme.

These soft play environments are robust, easy to wipe clean & manufactured with the children's safety in mind.

Visit [www.softplaysolutions.com](http://www.softplaysolutions.com) for our full range, designs & installations

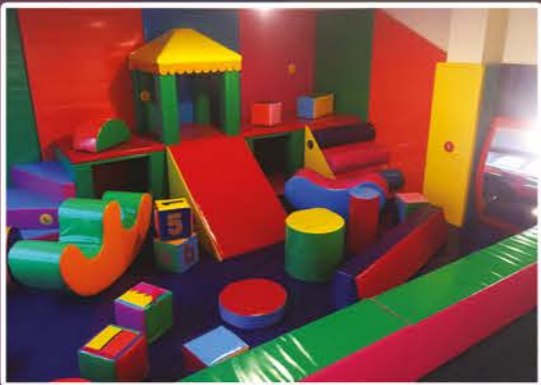

# SOFTPLAY SOLUTIONS...

If you have a spare room and want to increase revenue. Why not install a safe high quality soft play area in your nursery or crèche.

Take a look at some of our recent projects.

Whether it's themed with one of our ranges like we did here in both our farmyard and jungle range for Monarch's Nursery.

A plain bright and colourful safe soft padded area we did for Magic Rocket Day Nursery.

Or a multi-level play frame type structure we did for Daisy Chain Day Nursery.

We can design, manufacture and install a very high quality soft play environment which will teach the kids balance and co-ordination through fun & play.

We can supply you with a full colour visual of what your soft play area will look like.
